

JOHN VINCENT G. LAYLO

DEVELOPER, BUSINESS ANALYST & IT SUPPORT PROFESSIONAL

Email: zvincent.dev@gmail.com | Phone: +63 927 666 3575 | Location: Batangas, Lipa City, Philippines | GitHub: github.com/zvincent07 |
LinkedIn: linkedin.com/in/john-vincent-laylo-322b023a6 | Portfolio: zvincent-4-7.vercel.app

PROFESSIONAL SUMMARY

Detail-oriented Developer, Business Analyst, and IT Support Professional with a Bachelor of Science in Information Technology (Major in Business Analytics). Experienced in bridging technical complexity and business objectives by designing, building, and deploying scalable, user-focused web applications. Proven track record in providing Tier-1 IT support, setting up workstations, automating operations, and maintaining robust system documentation.

TECHNICAL SKILLS

Web & Desktop Dev: React, Next.js, Tauri, TypeScript, Tailwind CSS, Zustand, ShadCN

AI & Automation: Prompt Engineering, OpenAI API, LLM Integration

Tools & Workflows: Git, Figma, Postman, Agile / Scrum, Tech Documentation

Backend & Systems: Node.js, Rust, Express.js, REST APIs, Vercel, CI/CD

Database Systems: PostgreSQL, MongoDB, SQLite, MySQL, Supabase, SQL Optimization

IT Support & Networks: IT Support, PC Building, Troubleshooting, Active Directory, Windows Server, Hardware/Software

PROFESSIONAL EXPERIENCE

Technical Intern | COMELEC (Government / Public Sector)

Feb 2026 - May 2026

- System Operations:** Facilitated voter registration processes and managed certificate issuance, ensuring 100% data accuracy and efficient document turnaround.
- Technical Support:** Provided Tier-1 IT support, resolving hardware and software issues for staff and public-facing workstations to minimize operational downtime.
- Workstation Setup:** Assisted in assembling, configuring, and deploying PC hardware and workstations for staff and public use.
- Service Management:** Managed public inquiries and form-based service requests, acting as a bridge between technical systems and user-friendly service delivery.

Freelance Technical Consultant | Self-Employed

2022 - Present

- Web Development:** Designed, built, and deployed responsive web applications and custom user interfaces for various clients.
- IT Support & Troubleshooting:** Provided freelance technical support, troubleshooting hardware, software, and configuration issues for local clients.
- Network Engineering:** Designed and simulated complex network topologies using Cisco Packet Tracer to support academic infrastructure projects.
- Scripting & Automation:** Developed Python-based data processing scripts in Google Colab to automate repetitive tasks for various clients.
- Technical Documentation:** Authored comprehensive technical documentation, project specifications, and user guides.

KEY PROJECTS

Kasapi Connect (Tauri, React, SQLite, Tailwind)

kasapi-connect.vercel.app

- Smart gym management software built to arm independent gyms with enterprise firepower, replacing expensive SaaS subscriptions.
- Developed an offline-first desktop application with a lifetime license, featuring automated QR attendance, Point of Sale, and secure data storage.

Dayframe (Next.js 15, Tauri, Rust, MongoDB, TypeScript)

github.com/zvincent07/dayframe

- A desktop productivity journaling app bridging Next.js and Tauri/Rust with a local daemon shell for fast startup and offline-native feel.
- Designed a modular frontend architecture, integrating Rust APIs via Tauri to build a highly responsive and lightweight system utility.

InvenTrack (PostgreSQL, Express, React, Node.js, Tailwind, RBAC)

inventrackgso.onrender.com

- Centralized asset lifecycle management system designed to eliminate manual tracking and auditing bottlenecks.
- Built a secure GSO inventory platform with RBAC, structured lifecycle states, and a single source of truth, solving spreadsheet mismatches and slow approvals.

EDUCATION

Computer Systems Servicing NC II | LCTI Lipa City Training Institute

2026

National certification covering computer systems assembly, network setup, and troubleshooting.

BSIT | Batangas State University

2022 - 2026

Major in Business Analytics | Specialized in data-driven decision making and software engineering.

Relevant Courses: Fundamentals of Business Analytics, Fundamentals of Analytics Modeling, Fundamentals of Enterprise Data Management, Analytics Techniques & Tools, Analytics Application

Senior High School Diploma | The Mabini Academy

2020 - 2022

STEM Strand (Science, Technology, Engineering, and Mathematics) | Built logic and calculus foundations.

LANGUAGES & STRENGTHS

Languages: English (Fluent), Filipino (Native)

Key Strengths: Systems Analysis & Design, Technical Writing, Agile & Scrum, Communication & Collaboration, Rapid Adaptability, Troubleshooting & Logic
