Languages

English (Fluent) • Filipino (Native)

Key Strengths

Systems Analysis & Design • Technical Writing • Agile / Scrum

PROFILE

Developer, Business Analyst, and IT Support professional focused on scalable applications, AI-powered workflows, and user-focused digital solutions. Experienced in bridging technical complexity and business objectives through modern full-stack development, database design, and automated systems analysis.

EXPERIENCE

Technical Intern | COMELEC (Public Sector)

2026

- **System Operations:** Facilitated voter registration processes and managed certificate issuance, ensuring 100% data accuracy and efficient document turnaround.
- **Technical Support:** Provided Tier-1 IT support, resolving hardware and software issues for staff and public-facing workstations to minimize operational downtime.
- **Workstation Setup:** Assisted in assembling, configuring, and deploying PC hardware and workstations for staff and public use.
- **Service Management:** Managed public inquiries and form-based service requests, acting as a bridge between technical systems and user-friendly service delivery.

Freelance Technical Consultant | Self-Employed

2022 — Present

- **Web Development:** Designed, built, and deployed responsive web applications and custom user interfaces for various clients.
- **IT Support & Troubleshooting:** Provided freelance technical support, troubleshooting hardware, software, and configuration issues for local clients.
- **Network Engineering:** Designed and simulated complex network topologies using Cisco Packet Tracer to support academic infrastructure projects.
- **Scripting & Automation:** Developed Python-based data processing scripts in Google Colab to automate repetitive tasks for various clients.
- **Technical Documentation:** Authored comprehensive technical documentation, project specifications, and user guides.

PROJECTS

Dayframe | Next.js 15, Tauri, Rust, MongoDB

github.com/zvincent07/dayframe

A desktop productivity journaling app bridging Next.js and Tauri/Rust with a local daemon shell for fast startup and native integration.

InvenTrack | PostgreSQL, Express, React, Node, RBAC

inventrackgso.onrender.com

Centralized asset lifecycle management system with role-based access control and structured state logs for auditor use.

QRoom | MySQL, Express, React, Node, QR

qroom-omega.vercel.app

Real-time classroom availability tracker with QR code check-ins for instant status updates and maintenance feedback.
